

Holiday in Sabah

DISCOVER SCUBA DIVE- T.A.R.P

Meet up with our crew at the designated point at 8:30AM for registration – signing liability release, medical statement. Our PADI Instructor will get you kitted for the correct sizes for wetsuit, fins and the rest of the scuba equipment. We will depart to the island in the marine park as soon as everybody is ready.

A safety briefing and an overview of the skill circuit you need to complete will be given by our PADI Instructor before going for the first dive. You will then go to chest height water where you will learn how to breathe with the scuba equipment, learn to equalize the air spaces in your body, mask clearing, and out of air emergency procedures. Once you've learnt the basics, you will then descend to a maximum depth of 12 meters. You will make a beach entry and dive for around 30-45minutes depending on how long the air lasts for (a general dive will last for 45minutes). You will finish the first session around 11.30am. We will then go to one of the island in the marine park for lunch & rest.

After lunch, we complete the afternoon dive from the boat to a maximum depth of 6 – 10 meters lasting for 45 minutes. We will return to the KK jetty between 3:30pm – 4pm or earlier/later depending on the schedule on that day.

-End of Service-

Package includes:

Return boat transfer only, diving equipment, guide, padi instructor to guide, use of scuba equipment, scuba diving permit fee, skill practice + 2dives (1beach dive & 1boat dive), ala-carte lunch and a bottle of drinking water.
